Union Institute & University is a private, regionally accredited, non-profit university that has, since 1964, taken a different approach to higher education. Union is a nationally recognized university offering programs of study leading to degrees at the bachelor's, master's and doctoral level.

Union Institute & University began with a vision of being a "university without walls"—an institution where working adults could have the opportunity to pursue a degree regardless of where they lived and worked. Many of the most commonly used terms in higher education— nontraditional students, interdisciplinary study, distance learning, mentoring, and social relevance—refer to concepts pioneered by Union more than 50 years ago.
