

# Licensure Disclosure

## Master of Arts with a major in Clinical Mental Health Counseling

### Catalog:

A state license in counseling is literally permission from a particular state to practice counseling or to call oneself a licensed counselor. Some states have a single license, and some have a two-tiered system. The names of state licenses vary from state to state. Some examples are LPC, LCPC, LPCC, LMHC, LPCMH, LCMHC, LPC-MH. Though requirements for licensure vary from state to state, all require some combination of: a master's degree; counseling experience and supervision; and a passing score on the NCE and/or NCMHCE. Some require a mental health jurisprudence exam of that state.

Note: Completion of the MA-CMHC degree does not automatically qualify students for certification or licensure in their respective states. Students should consult the appropriate state or national regulatory agency regarding licensure or certification requirements and processes for application. The ultimate responsibility regarding licensure or certification remains with the individual student and not with the institution. (2023-2024 Catalog, July 1, 2023)
